Fly**MyAirport**TM Overview

FlyMyAirport[™] is an innovative digital platform that enables consumers to search and book travel through airport websites. It's a digital customer service agent and concierge, too. It's like the airport's website listening to consumers and saying: "We understand your needs, and here are the best options our airport has to offer."

By strategically positioning the airport in the consumer's path to purchase, FlyMyAirport helps airports develop a direct relationship with travelers and fill more seats. And the best part? It comes with powerful analytics for improved decision-making and ever-increasing ROIs.

What's Unique

- Airport-Loyal Consumers
 - It is the best place to send consumers online to find that perfect flight to or from the airport... and the right conversation for airports to have with their community.
- Airport-Centric
 - Unlike Google Flights or OTAs like Expedia, FlyMyAirport sets the airport as the default for every search. Swiftly powered by KAYAK, its search results are local to the airport.
- Data-Driven Insights
 - Tracks visitor behavior, searches and booking patterns for informed decision-making.
 Importantly, FlyMyAirport includes purchase attribution.
- Hands-free Maintenance
 - Easy setup with maintenance-free hosted microsite.
- Complete Solution
 - Includes the ability to search vacation packages, car rentals, and hotels.

FlyMyAirport will revolutionize the way consumers perceive Airports and how Airports engage their community.

Key Features

- Localized Search-to-Book
 - Helps consumers find their perfect flight to or from the airport.
- Destination Landing Pages
 - Pre-built for nearly every destination (Orlando, Paris, Istanbul, Las Vegas, etc.), eliminating the need for airports to build them from scratch to support advertising.
- Exportable Flight Widgets
 - Easily embeddable flight search widgets for airport and community websites. This includes a widget for the Convention Centers, Universities, Speedways, etc.
- Live Performance Dashboard
 - Real-time insights into FlyMyAirport site performance.

How it Benefits Your Airport

- Enhanced Customer Experience
 - Elevate your website to better connect and service your community and its travelers.
- Productivity
 - Convert organic website visitors into purchases, and give them a reason to return.
- Greater Growth
 - Fill more seats, improve marketing ROIs, and build airport-loyal consumers. Also convert more rental cars from inbound passengers.
- Economical Investment
 - Affordable subscription model with a ton of upside: Only \$2000/month.
- Community Integration
 - Aligns with local efforts to attract more visitors.
